

### Ocean Shipping Container Availability Report

A weekly publication of the Transportation Services Division Agricultural Marketing Service

www.ams.usda.gov/oscar

April 2, 2014

Location Specific Analysis P.2

National Overview Maps P. 3-5

#### **Container Availability by Location:**

Charleston, SC P.6

Chicago, IL P.7

Cincinnati, OH P.8

Columbus, OH P.9

Dallas, TX P.10

Denver, CO P.11

Houston, TX P.12

Kansas City, MO P.13

Los Angeles and Long Beach, CA P.14

Memphis, TN P.15

Minneapolis, MN P.16

New Orleans, LA P.17

New York, NY P.18

Norfolk, VA P.19

Oakland, CA P.20

Savannah, GA P.21

Seattle, WA P.22

Tacoma, WA P.23

#### **Understanding this Report P.24**

To subscribe to OSCAR, e-mail: April.Taylor@ams.usda.gov

The Ocean Shipping Container Availability Report (OSCAR) provides a weekly snapshot of the availability of marine shipping containers at 18 different intermodal locations for the westbound transpacific trade lanes. The data shows the availability for five types of equipment, including 20 and 40ft dry, 20 and 40ft refrigerated, and 40ft high-cube containers, and provides estimates of equipment availability for the current week and projections two weeks out. The data are voluntarily provided to AMS by six members of the Transpacific Stabilization Agreement (TSA).

**Note**: An error was found in the Oakland data for one carrier for 40ft high-cube containers; no other locations, container types or carrier responses were impacted. The Oakland data was updated in this report on June 9, 2014.

## Location Specific Container Availability Analysis

#### **Historical Analysis of Cincinnati**

Between April and June of 2013, Cincinnati moved more than 5,700 metric tons of containerized agricultural products. Soybeans and animal feed made up more than 52 percent of the containerized agricultural products moved through the region. Grocery items and edible nuts comprised about 8 percent each followed by hides and skins at 6 percent. In terms of tonnage, agricultural exports used 20ft containers to move approximately 56 percent of these agricultural exports; however, in terms of twenty-foot equivalent units, exporters used 20ft containers for 39 percent of agricultural exports. This shows that exporters take full advantage of the relatively strong availability of 20ft containers in Cincinnati and fill them full with traditionally heavy agricultural products such as grains and hides.<sup>1</sup>

Each of the dry container types in the Cincinnati market have followed a similar pattern since the beginning of the year. Estimates on average trended upward through the end of February, and then began to decrease, with the exception of a spike in mid-March. Availability estimates for 20ft dry containers and 40ft high-cube containers have averaged about the same since the beginning of the year—157 20ft containers and 154 40ft high-cube containers—however, 40ft high-cube containers have averaged 105 units and have fallen in each of the past 3 weeks. Over the next 2 weeks, carriers are projecting an increase in the availability each of the dry containers types.

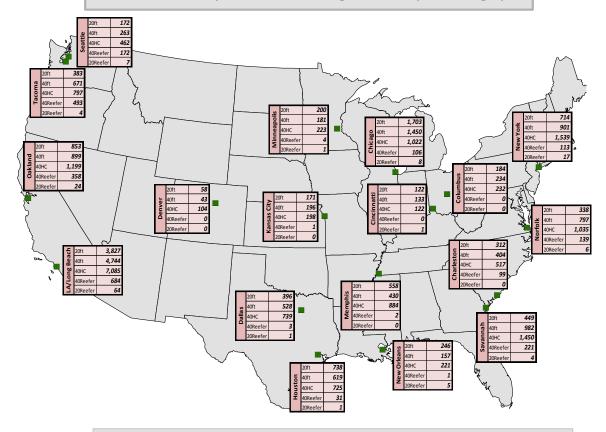

## Weekly Container Availability Estimates in Cincinnati, 2nd week of January (Wk 2) through 1st week of April (Wk 14), 2014 with Projections

# Understanding this Report

The weekly Ocean Shipping Container Availability Report (OCSAR) provides a snapshot of container availability for westbound transpacific trade lanes at select intermodal locations around the country. The data presented in this report are gathered from 6 member carriers in the Transpacific Stabilization Agreement (TSA). The TSA carriers include COSCO, Evergreen, Hanjin Shipping, Hapag Lloyd, Yang Ming Transport Corporation, and OOCL.

- The data are estimates of container availability per week by the participating carriers. The carriers determine container availability by comparing current supplies at each of the 18 intermodal locations with the demand for these containers based on up-to-date bookings or reservation information in the westbound transpacific trade lane.
- Each week, participating carriers report the estimated number of containers available for the current week (W1) as well as estimates for the subsequent 2 weeks (W2 and W3).
- Maps on pages 3–5 offer a national overview of weekly container availability, as well as an average of availability over the past 6 months. The weekly national data are derived from the sum of the individual carrier responses at each intermodal location.
- Individual carrier responses are presented by location on pages 6–23 and have been sorted from largest to smallest. To maintain carrier confidentiality, specific carrier identification is not provided.
- Carrier responses showing negative numbers, such as -29, should be interpreted as meaning that 29 containers are needed by shippers but the carrier is not able to supply them. A positive number, such as 64, would mean 64 containers are available that are not demanded. An indication of 0 means the carriers have the exact amount of containers needed based on current supply and demand estimates.
- In addition to the weekly container availability data, the participating carriers provide average weekly throughput data for the past 6 months. These data help readers understand the aggregate flow of containers that have moved through the 18 select locations by the 8 participating carriers over the previous 6 months. These data will only be updated every 6 months.
- Availability levels are subject to change, and may be affected by delays in return of equipment to carriers by shippers or consignees, and by free time restrictions imposed by railroads. Due to the dynamic nature of the container industry, carriers cannot be held responsible for the level of availability at the time of inquiry.
- Data presented in the report do not imply availability of chassis.
- Container availability estimates represent availability for all export cargo, not just agricultural products.
- USDA collects these data on a voluntary basis and cannot be held responsible for the status of container availability when a reader makes inquiry with an ocean carrier. USDA relies on the participating ocean carriers to ensure the data is accurate.
- Terminology:

20ft Dry Container (20ft): A standard shipping container that is 20 feet long.

40ft Dry Container (40ft): A standard shipping container that is 40 feet long.

40ft High-Cube (HC): A shipping container which is 40 feet long and 9 feet, 6 inches tall (1 foot taller than a standard 40ft dry container).

40ft reefer: A refrigerated shipping container which is 40 feet long.

20ft reefer: A refrigerated shipping container which is 20 feet long.

Chassis: A wheeled frame to which a shipping container can be locked for storage or movement. (Plural chassis)

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the bases of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited bases will apply to all programs and/or employment activities.)

If you wish to file an employment complaint, you must contact your agency's EEO Counselor (PDF) within 45 days of the date of the alleged discriminatory act, event, or in the case of a personnel action. Additional information can be found online at <a href="http://www.ascr.usda.gov/complaint-filing-file.html">http://www.ascr.usda.gov/complaint-filing-file.html</a>. If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form (PDF), found online at <a href="http://www.ascr.usda.gov/complaint-filing-cust.html">http://www.ascr.usda.gov/complaint-filing-cust.html</a>, or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter to us by mail at U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at <a href="moreoverlight-program.intake@usda.gov">program.intake@usda.gov</a>.

Individuals who are deaf, hard of hearing or have speech disabilities and you wish to file either an EEO or program complaint please contact USDA through the Federal Relay Service at (800) 877-8339 or (800) 845-6136 (in Spanish). Persons with disabilities who wish to file a program complaint, please see information above on how to contact us by mail directly or by email. If you require alternative means of communication for program information (e.g., Braille, large print, audiotape, etc.) please contact USDA's TARGET Center at (202) 720-2600 (voice and TDD).

For any other information not pertaining to civil rights, please refer to the listing of the USDA Agencies and Offices for specific agency information.
